Whenever you have occasion to go to Englewood, Kansas, stop at the Englewood House. Their accommodations are the best and are strictly high class. See "ad" in advertising column.

Stockmen, advertise your brand. A few \$ spent in advertising may save you many days riding and perhaps restore cattle that have long been strayed away.

Rev. Vaughan of Liberal preached at Beaver Saturday night and at Elmwood Sunday morning and evening. He was accompanied on his trip by his wife and two children.

If the rain and snow beats through your roof and spoils your walls and ceiling, go to Bolin & Brown, Liberal, Kansas, and get shingles to mend it. Their prices are always the lowest.

Our merchants are continually putting in new goods and are kept busy handing them out. Hardly a day passes that our streets are not traversed by strangers who have located near Beaver or who are looking for a location.

J. I. Egbert presented the HERALD force a fine large sweet potato this week—the last one he had left over. The potato is a mammoth one and perfectly sound. Mr. Egbert raised a good crop of potatoes last year.

Meade county is trying to rid itself of prairie dogs. Each township furnishes the poison to be used in exterminating the little pests. Beaver county should follow suite. Why not offer a bounty?

A crowd of men from the Kiowa among whom were Pearl Parker and A. B. Barrett, passed through town last week enroute west in search of a location for stock. They said they were looking for a place where it was so rough that a plane would not be put in the ground. They evidently were not pleased with the appearance of new settlers.

Sol Blosser of Elmwood is on a deal with a man from up the river whereby he will dispose of his herd of cattle. The deal was not closed Saturday.

If you want any pointers on churning see Gene Groves. One day recently he set about to churn. After pouring what he supposed to be the sour cream in the churn he began to beat away. He churned and churned finally succeeding in getting about a spoonful of butter. Imagine his surprise when he found he had churned the morning milk.

We have noticed that cattle in this vicinity are shedding a portion of their ears. Upon examination it will be found that about midway of the ear a sore appears as if an insect of some kind had eaten across the member. That portion of the ear toward the tip is as hard as a board and gradually drops off. It is stated by stockmen that this is caused by the ears being frozen. It works havoc with the ear marks, in most cases entirely destroying them.

We understand that there some who object to paying up their subscription in advance, to this paper for the reason that they fear we might sell out before their time expired and they would thus lose money. To all those we will say that there is no likelihood of this paper changing hands again soon but even if it should we will guarantee that all those who pay up in advance will receive the paper as long as paid for or their money will be refunded. Don't be afraid to pay in advance. If you don't get full credit from us, we will make you a present of a year's subscription.

John R. Thomas sent in \$14.25 to the territorial committee, which was the amount subscribed at this place to the McKinley Memorial fund. This is a pretty good showing for 35 voters Democrats as well as Republicans contriuted. There is considerable feeling expressed at the way the territorial committee have acted in the matter of raising funds. Sending out assessments of \$7.50 to each post master and \$10.00 to each county official is looked upon as being an unwarranted way of doing business and entirely out of line with what is known to be the sentiment and character of President McKinley.

Beaver county at any time will do her full share in any matter of patriotic interest but she is going to do it in her own way—put a tack there.

Notice.

Parties knowing themselves indebted to us please call and settle at once as we are obliged to have the money.
